

Meeting #16 Minutes (9-11-22)

- Volunteer - Now that all of the forms have been filled out, I am working out a list of rosters to sort together; other than that I'm all set with everything.
 - Golf cart is confirmed
 - All good to use tables from the com
 - going to put the golf cart key on a lanyard, only people to have access are Jordan, Avian, and Connor
 - 5k workshop could be in one of the next two meetings, we need to finalize our plan for this due to brothers having more responsibility than volunteers
 - Pep bands are straight, we currently have John, Kanoka, Sam, and Andy Dubbert; looking for two more potential conductors
- PR - need to contact Dave Westberry to see if he is available to attend the race at 8:30am, welcome everyone at the beginning of the race, announce sponsors, count off the race and announce the winners
 - Posted on socials today about "share your favorite pic from NOLA" and also promoting the last day of early bird registration; also posted on not a meme and twitter
 - The marching chiefs discount code has already been sent out
 - Still contacting other chapters and schools to attend on race day; we've heard back from UF, they have a game that weekend
 - Make a post saying that the cut off date for virtual packs is Monday, September 12
- Registration - check with the chip timing guy; update him with the numbers that are currently registered
 - We can't have some shirts early from the company, they only do complete orders all at once; we should pack everything as early as possible so we only have to worry about packing shirts once they arrive
 - Our card insert proposal with the mystery uniform design was shut down, we won't have new uniforms until 2024 at the earliest now; the new idea is to include a graphic of a Chief in uniform listening to music through headphones with text saying "Running to the beat of the Marching Chiefs band!"
 - Bibs are ready, I haven't been able to make it to campus; someone texted saying I have a package to pick up in KMU 204
 - With early bird ending, the price goes up to \$35 for everything, we need to take off virtual packs entirely
 - Everything that has been bought already needs to be organized so that we don't take away from the people who have pre ordered since day one
 - We should set up closer to where the alumni association table will be to avoid confusion

- We can let people request which bib number that they want
- We should set aside two medium shirts aside for Trader Joe's, 3 shirts set aside for Band Directors
- Sponsor - still need to call Trader Joe's
 - Need to reach out to Lion's club to confirm with them
 - Artxnikki has been reaching out to us about designs
 - So far we have 3 art tables, music masters, Trader Joe's, and Lions Club; we need to block off the first row of parking spots to reserve spots for them and have a row of tables
 - Reach out to FSU parking services about blocking off parking spots; we can use the spots outside of the field house if all else fails
